Majdi Saadani

Data Scientist & BI trainee at Cancéropôle Île-de-France

Paris , France

4 Expériences 2 Enseignement 35
supérieur Compétences

Biographie

I am a student in software engineering specialized in ERP / BI (ESPRIT School of engineering), I am interested in what is Business Intelligence ,Big Data and data mining.
During my studies, I have had the opportunity to hone my skills with BI tools (Data Warehousing, SSIS,SSAS, SSRS, Pentaho Kettle and JasperSoft …) and big data environment.
Having worked on interesting topics such as implementation of a business intelligence solution for BIAT bank and the development of a decision support application at ORANGE and with my independency I managed to acquire good skills in design and business logic allowing me to easily adapt to different subjects and environments.
